**BABSON DISCUSSES  
ATOMIC BOMBS**  
(Exclusive NEWS Feature)

As an introduction to this week's column, let me say that I know nothing about A-Bombs or H-Bombs. My present thinking has been due to two things:

**TWO IMPORTANT DEVELOPMENTS**

(1) The Atomic Energy Commission has permitted one of its engineers to visit us in Central Florida and exhibit some of the uranium being produced from phosphate clays. The recovery is very small per ton of clay; but there are billions of tons. This makes our part of Florida an important source of uranium. This should add to the attractions of the state of some of our established phosphate companies.

(2) The President has made reference to bombs in a recent speech and at his news conferences. This also is significant. What is the reason for this exhibiting of our uranium resources and the constant references to the H-Bomb? Then we also have the pictures of the H-Bomb tests in the Pacific, and the various newspaper and magazine articles released thereon. These developments make me suspicious that important news is in the offing. Something perhaps is going on behind the scenes which none of us realize, and it may be announced before this column gets printed. It may be that the President is trying to prepare

**New System Of Machine Accounting  
Now In Operation At Town Hall**

A long range plan to modernize the accounting system of the town of Arlington from manual to machine accounting is nearing completion under the direction of town accountant Carmen Foritano. Mr. Foritano, lifelong Arlington resident, and a graduate of Bentley School of Accounting and North-eastern, was appointed to his present position three years ago.

In October, of 1952, he suggested to the Board of Selectmen that the \$6,000,000 business conducted by the community could better be handled if a machine accounting system was installed.

An appropriation of \$5,000 was arranged, and was voted at the 1953 Town Meeting. Mr. Foritano started shortly after to prepare the new types of forms and systems needed.

He visited neighboring communities such as Quincy, Medford, Brookline and Brockton to study the type of accounting used there.

Basically the changes are enumerated by Mr. Foritano as follows:

1. Installation of an Encumbrance Control System of accounting whereby appropriations are earmarked as soon as a purchase order is received in the accounting department.

2. A Numerical Code has been set for appropriation and expense accounts to facilitate the handling of accounts.

3. Invoices filed alphabetically instead of by voucher. This eliminates the former procedure of

writing a separate check for each individual invoice.

4. Cumbersome appropriation and classification books have been replaced by ledger cards set in trays.

5. The new check was designed so that the accounting machine automatically prints the amount on two different places on the check thereby eliminating the old method of inserting each check individually into a check protecting machine.

6. Vendors checks which were written in the Treasurer's department are now processed by personnel from the accounting department and treasurer's office. This gives us a more efficient operation.

7. All departments will be given a monthly statement of expenditures and balances.

With the help of his staff, Mr. Foritano has completed most of the needed changes, had new forms printed and machinery installed.

Now, when any department wishes to learn their current balance, they need only to contact the Accountant's office, and the balance is readily available on the card files, which have replaced many cumbersome ledger books.

Assistants include William Garton, Junior, Accountant, Mrs. Marion O'Connor and Miss Alice Leary. Mr. Foritano's new system has been widely approved by many firms and also by Town Manager Monahan and the Selectmen.

**Report Break At  
Gloria Market**

Thieves broke into the Gloria Store, 281 Broadway, Saturday night, broke open the safe and made off with \$500 of the store's week-end receipts.

The break was discovered early Sunday morning by Officer Charles Tynan, who found the rear door not secured.

The owner was notified to come to the store and he and Officer Tynan entered and found that the safe had been removed.

Later, the safe was found in a large ice box, which is located at the rear of the store. The thickness of the ice box prevented any noise from being heard while the safe was broken into.

Police said that the thieves either stayed in the store after closing time or they had a key.

**Story By Local  
Teacher In Post**

"Don't Tell Me Teaching's A Soft Job!", an article by Miss Alexandra Krestin, English teacher at Arlington high school, appears in this week's issue of the Saturday Evening Post.

Miss Krestin details some of the problems, hazards and bright spots which occur in her teaching routine. She offers advice to those who are considering teaching as a profession and to parents she outlines the qualifications that she thinks a teacher should possess in order to be a fit teacher of their children.

Miss Krestin's philosophy on the subject could be summed up in these words: "In spite of everything, she happens to love kids and wants to share in their destiny."

**Salk Polio Test  
Will Depend On  
Vaccine Arrival**

Whether or not the Salk Polio Test will be carried out in Arlington depends solely on the receipt of the vaccine. If the vaccine has not been received by the fourteenth of this month, the test cannot be given, according to the Board of Public Health.

The test is divided into three separate injections and must be spread over a five week period. Since the Arlington schools close on June 18 for the summer vacation, there would not be sufficient time for completion unless the vaccine is received by the 14th of this month.

A unanimous decision of the Board of Health in approval of the test was voiced at their special meeting last Wednesday.

Children in grades one, two and three, with the consent of their parents, would be given the inoculations.

Each youngster in these grades of the Arlington schools will take a form home to be signed by the parents before the vaccination will be done.

J. Philip Bower of the Board of Health will be in charge of the organization of the test. The vaccinations will be given by local doctors.

The entire program is under the direction of the National Foundation for Infantile Paralysis. Thomas Stotler represented this organization at the meeting last week.

Others present at this meeting were: the Town Manager, Edward C. Monahan; Chairman of the Board of Selectmen, George A. Harris; Superintendent of Arlington Public Schools, Clifford R. Hall; School Committee members, Arthur F. Coughlin Jr. and Joseph F. Bevins; Principal of the Cutter and Parmenter Schools, Kenneth A. Cameron; Principal of the Brackett and Locke Schools, Lawrence J. Mantyla; representative of St. James Schools, Helen M. Heffernan, R.N.; Public School Nurses, Mrs. Martha Hunt, Mrs. Ruth Branscombe, and Miss Audrey Sisson, all R.N.; Director of Health and Physical Education, Mr. Carl Erickson; Arlington Visiting Nurses Assoc. The injured man was taken to Symmes Arlington Hospital in Scout Car 7, driven by Officer William Shea.

Theresa Agostino, aged 14, of 104 Fairmont street, was shaken up in an automobile collision at Mass. avenue and Grafton street on Friday.

## TOWN HALL Press Conference

Appointment of Joseph A. Purcell to the position of Town Counsel to succeed Russell T. Hamlet was popularly received, although little advance information had filtered out concerning the appointment. Few individuals are in as close touch to the affairs of the town as the former Chairman of the Board of Selectmen.

The Selectmen have voted to ask the Metropolitan District Commission to widen the mouth of the Mystic Valley Parkway at the entrance to Mystic street, where traffic is constantly tied up during peak periods.

In conjunction with the traffic map prepared by Mr. Harris, the Selectmen discussed the possibility of cutting off the curve at the corner of Mystic street and Mass. avenue to make a right hand turn more convenient. The possibility of removing the island there also was advanced. No action was taken at present.

General reports on the civil defense alert recently were satisfactory. The personnel responded with a high percentage of attendance, and the traffic and pedestrian control was excellent. However, officials were somewhat concerned over the possible need for louder alarm signals.

A meeting of the M.T.A. Advisory Board will be held Thursday at the office of Mayor Hynes in Boston to act on the proposed Science Park station. Approval of the advisory council, of which Town Manager Monahan is vice-chairman, will mean that construction of the station can be carried out. Arlington was one of the M.T.A. communities to vote against the proposed station.

Selectmen have asked the M.T.A. to paint or improve the appearance of the fence at the rear of M.T.A. property on Paul Revere road, which residents of the area have protested is an eyesore. The M.T.A. has agreed to investigate the situation, but as yet have offered no assurances that the fence will be replaced or repainted.

The Selectmen have been invited to attend the dedication of the Rodman Laboratory at the Watertown Arsenal on May 15, in conjunction with Armed Forces Day. Selectmen Hurd has obtained the necessary credentials to admit the local group to the ceremonies.

Because of a dangerous condition at the bridge over the Alewife Brook Parkway on Mass. avenue, Selectmen have asked the Public Works Department to have a chain link fence replace the present pipe fence on the bridge. A child, David Quinn, 2 1/2, of 2594 Mass. ave., Cambridge, recently fell through the fence while watching a cat chase fish. He was rescued by Robert O'Connor, local automobile dealer, who saw him fall through the fence.

The office of the Board of Assessors is being moved into the area formerly occupied by the Town Tax Collector and Treasurer. The Town Accountant will be moved into the office of the assessors, which will provide more space for that staff.

An example of the new policies regarding development of housing property here evolved from Monday's meeting of the Selectmen. A builder, Mr. De Angelis, has asked permission for construction of several houses on Campbell road between Dow avenue and lots 85 on Campbell road. Under the new policy he must provide a performance bond covering installation of sewer and water, including laterals to the proposed houses, street construction and drainage to the satisfaction of the town engineers, and sidewalks and loam strips. Mr. De Angelis agreed to the requirements, and it is understood he will proceed with his development under those requirements.

Meetings of the various special school committees are being held constantly. The North Union street committee met Tuesday, the general committee is to meet Thursday, and the Florence avenue group Friday. Last week the Parmenter group held another session. Meanwhile, the Bishop committee is awaiting the report from the state on the town's request for state aid.

Rev. P. W. Back of Arlington was the guest speaker of the afternoon session.

Twelve members of the Good Samaritan Circle of Arlington attended the convention.

Arlington has achieved 74 percent of its quota in the Cancer Crusade, according to still-incomplete returns published today by the American Cancer Society's Massachusetts Division.

Led by Reading with a whopping 201 percent, 16 Massachusetts communities have already surpassed their quotas in the Cancer Crusade, seeking to raise \$710,000 in Massachusetts for support of cancer research, education and service.

The communities which have topped their individual goals are, in addition to Reading, Winchester, 128 percent; Cohasset, 121; Revere, 121; Dover, 120; Concord, 113; Milis, 112; Norwell, 103; Sterling, 118; Littleton, 109; Erving, 103; Topsfield, 126; Merrimac, 122; Rockport, 107; Middleton, 110, and Taunton 113.

"Last week's highly successful neighbor-to-neighbor campaign in Boston and some 50 other communities has brought the statewide goal within sight," said Adrian O'Keefe, state chairman, "but an additional effort on the part of community volunteers and a renewed response by the public will be necessary to make the possibility a reality."

"I urge all volunteers now to call upon all persons not previously contacted, and at the same time may I urge all persons who have not contributed as yet to do so now by addressing their contributions to Cancer, in care of any local post office."

### Leg Fractured

Police identified the operator of the sedan as Ralph A. Ware of 61 Woodside Lane.

The boy was treated at Symmes Arlington Hospital.

The loss of your very capable professional services will be felt by officials of the town, generally, and by me specifically. During the conversion period from the Old Form to the New Town Manager Form of Local Government, your services have been practically indispensable.

I am sure that the new Town Counsel will take advantage of your very generous offer to co-operate with him in every possible manner to the end that I, as Town Manager, and the town may benefit to the greatest possible extent.

Even though I knew months ago that because of the pressure of private practice you were anxious to leave the town service, it is with reluctance and regret that I accept your resignation, but I respectfully bow to your wishes in the matter.

In closing, may I express my deep gratitude and appreciation for your wonderful co-operation and helpfulness to me since I have been Town Manager. May I say also that your very distinguished services to the town during your nine years as Town Counsel are indeed appreciated by the people of the town.

With kindest personal regards,  
I remain

Very truly yours,  
Edward C. Monahan  
Town Manager

Edward C. Monahan,  
Town Manager  
Robbins Memorial Town Hall  
Arlington 74, Massachusetts  
Dear Mr. Monahan:

Since my appointment March 22, 1943 I have had the honor and privilege of serving the Town of Arlington as legal Counsel. I have endeavored at all times to merit the confidence of the Town.

However, the pressure of private practice has gradually increased

and I now find it imperative that, in justice to both the Town and myself, a decision be made. Therefore, it is my desire that I be relieved of my duties and responsibilities as of June 1, 1954.

For the kind consideration of you and the various Boards and Officers through the years, and to all the employees for their co-operation and helpfulness, I desire to record my sincere appreciation.

To the new Town Counsel, whoever he may be, I will co-operate with him in every possible manner to the end that you as Town Manager and the Town may benefit to the greatest possible extent.

Sincerely,  
Russell T. Hamlet  
Town Counsel

## Pastor Discusses Symbols and Rites

"Instruments of Worship" was the title of the sermon preached last Sunday at the Universalist Church by the Pastor, the Rev. George J. W. Pennington in which symbols and rites in the liberal Church were explained.

The minister stated that the various objects and activities of a worship service exist primarily for two purposes, to produce personal serenity and rededication, or "(1) that we may feel good about ourselves, our fellows and life, and (2) that we may be of some good to ourselves, our fellows and life."

Said Rev. Mr. Pennington, "The meaning of an hour of Sunday worship is made known in our daily attitude, the quality of our moral decisions and our personal love of life." The Pastor suggested that these were tests of worship.

This Sunday, Mother's Sunday, will be observed as the Festival of the Home in the Universalist Church, and the sermon will be entitled, "A Homily on the Home."

## Gov. Herter Signs Bill Which Repeals Stock Transfer Tax

An Act to repeal the Massachusetts Stock Transfer Tax was approved by the General Court and became law when Governor Herter signed the Bill last week.

Representative Hollis M. Gott of Arlington, Chairman of the Special Commission on Taxation and leading exponent of the Bill said, following its passage, "This insures a far brighter future for the stock transfer business in Massachusetts, and better and cheaper service to the individual shareholder in this State. It will help create jobs where before regional competition was causing stock transfers to be effected outside of the Commonwealth with the resulting decline in business and loss of jobs here."

Under the provisions of the Bill, which became effective May 1, 1954, shareholders may sell or transfer their securities either through the Boston Stock Exchange or over the counter without the payment of a State Transfer Tax.

Among the more important benefits to be derived from the elimination of the tax, as pointed out by the Special Commission on Taxation, which was one of the chief proponents of the Bill when it was introduced last fall, is the removal of the competitive disadvantage under which local business has been placed in comparison with those states where no transfer tax is levied.

Describing the benefits of tax-free transactions in Massachusetts, Henry E. Tracy, Executive Secretary of the Boston Stock Exchange,

called the move an intelligent and far-sighted non-partisan recognition of the growing competition among financial centers and the necessity of our keeping alert in order to maintain and strengthen our competitive position. At the same time, he pointed out, our thrift-minded New Englanders will not be unaware of the saving which is now available to them.

A year ago former Tax Commissioner Henry F. Long recommended repeal of the tax because it put this State in an inferior competitive position with most other States. This was the first time in his lengthy career that Mr. Long ever favored a tax repeal. The elimination of the tax in Massachusetts, leaves only five of the forty-eight States which impose a tax on stock transfers.

## Registration Underway For Next Visit Of Bloodmobile May 21

Each month the hospitals in Massachusetts use approximately 12,000 pints of blood in transfusions to help sick people get well.

From this monthly total, the Red Cross distributes between 6,500 and 7,000 pints for the patients in these hospitals, and Red Cross is unable to fill all quotas received from the hospitals.

Some of that blood should come from residents of Arlington who'll have the opportunity to donate here at St. John's Parish Hall, Pleasant and Lumbard streets, Friday, May 21st, from 1:00 to 7:00 p.m., when the Red Cross bloodmobile rolls into town.

Mrs. Russell Hamlet heads the local committee whose goal is 150 pints of blood to aid the sick, injured and wounded.

Registrations may be made by calling Arlington 5-4129.

In some small hospitals, Red Cross provides 100 per cent of the blood needs for the patients.

But in the large Boston hospitals, where excellent blood bank facilities are maintained, Red Cross provides blood in various amounts. Usually, Red Cross supplies about 50 or 60 per cent of the blood needed in these hospitals.

Although the Red Cross is the biggest blood collection agency in the State, it by no means holds a monopoly in collecting and supplying blood for the sick and injured.

If you are in a civilian hospital, there are three ways that you would receive blood:

1. You would pay a hospital fee for the blood — about \$25 a pint — and also would pay the hospital for the necessary laboratory work and the administration costs.

2. You would have friends replace the blood at the hospital blood bank — in many instances two pints to reach pint used — and administration fees would or would not be charged, according to the hospital's policies.

3. You would contact your local Red Cross blood program chairman who would make arrangements with the Red Cross Blood Center to replace the blood you used at the hospital. There would be no charge for the blood, but there would be the hospital's laboratory and administration charge.

Military hospitals in Massachusetts receive nearly all of their blood requirements through the Red Cross Blood Program. Patients at those hospitals never pay for blood or for administration or laboratory charges.

Veterans hospitals in Massachusetts receive much of their blood through the Red Cross Blood Program and through donations received at the hospitals by friends and groups from organizations. Patients in these hospitals never pay for blood or for laboratory or administration charges.

The principal reasons there are no charges for blood received through the Red Cross are:

1. The Red Cross never charges

anything for its services — by tradition and by philosophy.

2. The Red Cross supports the financial needs of the Blood Program through the fund contributions made by the public in March.

Blood donations are used by the military in the form of serum albumin a part of our blood used to combat shock.

Also, from blood donations, another part of our blood — gamma globulin — is extracted and is used in the fight on diseases.

Family physicians may receive gamma globulin on request from the State Department of Public Health. There will be no charges for the gamma globulin itself.

From the top to the bottom of the Red Cross Blood Program is this thought which is daily put into practice:

If blood is available — meaning, that if enough people have given blood — it will be supplied without charge to people who need it.

There is only one source for blood. Its source is people who must give for the first time if they've never given before, and must be given again and again by those who realize the need for this "Gift of Life."

## Arlington Heights Study Club Meets

The Arlington Heights Study Club held a regular meeting on Tuesday, April 27, at the home of Mrs. Armand LaFrance, 74 Wollaston avenue. Mrs. Marcus Sorensen and Mrs. Francis Chamberlain were hostesses at the coffee hour which preceded the business meeting.

Mrs. J. Frank Biggs introduced the two speakers of the afternoon: Mrs. Hector MacNeil, who presented a paper on Victoria, Canada; and Mrs. Hallam Ring, who read a paper on Lima, Peru, prepared by Mrs. Leonard Curtin.

The annual meeting with election of officers will be held on the afternoon of the eleventh of May at the home of Mrs. Robert Reynolds in Winchester. At this meeting the final paper on the series, "Cities of the World," will be presented by Mrs. Marcus Sorensen.

Tryouts for the Post 39 Junior Legion Baseball team of Arlington will commence this Saturday afternoon at Spy Pond Field and on Sunday afternoon at Summer Street Field. Only three weeks remain for the team to be selected and the players certificates and pictures sent in to the State Legion Headquarters.

## Noted Designer Visits Cronin's

Toni Owen, top fashion and sportswear designer from New York, will visit New England on May 7th as the guest of Grover Cronin in Waltham. This will be her only New England appearance. Miss Owen, whose coordinated separates have received great popular favor, is winner of the Mademoiselle Merit Award, and a special award of the City American Fashion Critics. Among her many fashion accomplishments she completed the entire sportswear wardrobe for the stage success "Wish You Were Here."

Her latest collections, to be featured at Grover Cronin include separates with a seascaped motif and Dalmatian prints. Miss Owen specializes in casual clothes with a sophisticated flair — her outfits are famous for their good taste and adaptability and their strong appeal to career and college girls and young marrieds, in fact practically everyone who wears and enjoys casual clothes. She has achieved her aim to bring the very best of good taste and originality to moderate-priced clothing.

In private life, Toni Owen is wife of W. L. Lyall, vice president of Bates Fabric Company. Her personal biography is a kaleidoscopic one. Born in Chicago, she was graduated from the University of Wisconsin, taught high school social science for two years, then managed a ladies' specialty shop in New Jersey until she became a sportswear designer.

The Lyalls share a number of outside interests, including riding, decorating, and restoring antique furniture. Slim blonde Toni Owen demonstrates her charm and versatility in both her professional and non-professional roles. She, like the sportswear she designs has a versatile and colorful personality. Her coordinated fashions are in the Grover Cronin sport shop, and will be shown from the street floor studio on May 7th at 4:30 p.m.

## IN GOOD HANDS

For more than a decade the legal affairs of the town of Arlington have been in good hands, and with the new appointment by the Town Manager, there is assurance that they will continue in good hands.

Russell T. Hamlet, retiring on June 1 as Town Counsel, has seen the town grow considerably, emerge from a war, and finally develop into a Town Manager form of government. In recent years, the pressure of the office has been on the increase, and Mr. Hamlet has found the duties conflicting with his own successful practice.

His service will be missed, but in Mr. Purcell, the town has a successor who has shown great personal interest in the community. He has served it in many ways, his most recent being Chairman of the Board of Selectmen.

The town is fortunate to have such able representatives handle its legal affairs.

## STILL UP IN THE AIR

Whether or not the Salk test will be carried out in Arlington depends entirely on the time of arrival of the vaccine in the state. It is understood that as soon as the vaccine arrives here, it will be distributed to the communities. Arlington will be ready to go on May 14, unless indications are that the vaccine will not arrive. Should the test be postponed, it would be only because of the timing.

## ODDS ON!

If you had \$21,000,000, would you bet the entire amount against just \$1, especially if there were a good chance of losing your fortune? Of course you wouldn't. Yet each day there are thousands of people, who, in effect, make the same kind of wager.

Safety engineers for Lumbermens Mutual Casualty Company, a member of the Kemper insurance group, report that a man 30 years of age — the median age of our population — can look forward to approximately 40 years, or 21,000,000 minutes, of life. Every time he takes a chance with his life just to save a minute, whether it be on foot or driving a car, he is risking that minute against the other 21,000,000.

Only a fool would gamble against such odds.

### SOMETHING MORE TO THINK ABOUT

The A-Bomb has been expensive to make. It is unofficially reported that such a bomb may cost \$50,000. On the other hand, the reverse may be true of the H-Bomb. After the new plant near Augusta is complete, it may be possible to make H-Bombs for \$100 each. I don't know, and am only reporting rumors.

Another story going about is that the new H-Bomb will make obsolete a good portion of the famous Oak Ridge Plant in Tennessee. Very revolutionary events are pending. The H-Bomb, owing to its greater destructiveness at less cost, may be of much more importance than the A-Bomb, although the latter is needed to set off the H-Bomb. Furthermore, this H-Bomb may be a factor — perhaps the deciding factor — in bringing about World Peace for the next fifty years.

### RELOCATING OUR CITIES

Two points I am willing to forecast: One is that the H-Bomb will result ultimately in moving the White House Executive Offices, the Senate and House of Representatives, plus the Supreme Court, to the center of the United States. Washington, D. C., is now at its peak of importance. It could begin to decline in population and prestige. Washington real estate may now be a "good sell."

The other point is that the various Departments will someday be located in other cities within a radius of 50 miles. The Defense Department will be at one city; the Treasury Department will be at another city; while the Justice Department will be at another. In other words, the nine major Departments will be in nine smaller cities located like satellites about the central city where the Executive, Legislative, and Judicial roots of the American Tree are to be transplanted. The only defense against enemy A-Bombs or H-Bombs is decentralization. Hence, factories will also be decentralized. The Central West and South will increase in population and prestige. Real estate in such midwestern cities may now be a "good purchase."

### RECENT FBI NOTICES

Added to the events mentioned above, we note the remarkable notice sent out by J. Edgar Hoover of the FBI, to be on the watch for heavy suitcases. These may carry A-Bombs and their lead insulations. As a result of all the above, I forecast further important International Conferences which will be aimed to bring about World Peace at least for the life of all living today. These conferences, which started at Geneva on April 26, will discuss China and other Far East problems, as well as Russia. They may even lead to an international discussion of birth control, which is intimately connected with the elimination of war.

## TO THE EDITOR

Editor, Arlington News

It is my belief that any and all organizations in Arlington are entitled to know what goes on in town government.

Recent publication of Selectmen's activities in the NEWS, has resulted in requests that I attend several meetings to tell what is being done and how the town is being operated.

This is my offer to accept any invitations of organizations, or groups, in Arlington, at any time convenient to both parties.

As long as any question pertains to Arlington, I shall endeavor to answer it publicly before such groups.

George A. Harris  
Chairman  
Board of Selectmen

Editor, Arlington News

On behalf of the Arlington Woman's Club, please accept my sincere thanks and appreciation for your fine cooperation and willing generosity in covering our club activities during the year ending April 30th.

As we plan our program for the coming year, it is encouraging to feel we may look forward to your continued cooperation and support.

Sincerely,

Mrs. Arthur H. Pulsford

Chm. Press-Publicity.

Editor, Arlington News

Since our fund appeal closed earlier this month additional funds have been received to help the Red Cross continue its work for the people of your community and for people in need of Red Cross help everywhere.

Through the cooperation that your newspaper gave to the Red Cross, I wish to say that we are extremely grateful for the assistance that you gave to us and to the volunteers who were out in the neighborhoods ringing doorbells.

In the days to come we wish to assure you that all the work done by the Red Cross will be done in your name and in the name of the people who are members of this very organization.

When disasters strike, when the sick and injured need blood, when children are trained to swim and

adults are trained in health and safety skills, when worried servicemen and their families need the help we can give — the Red Cross will be helping them with all the ability and resources at our command.

We want you and the people of the community to know that it is your Red Cross. To appreciate the work that is done we hope that more and more people will participate in the programs that make it more than an organization but a great group of "People Helping People."

Sincerely yours,  
Thomas Motley, 2nd  
General Chairman

## Red Cross Gives Course Here Soon

"Sickness in the family can be a frightening thing," says Miss Mary Donnelly, Nursing Services director for the Boston Red Cross chapter, "but men and women skilled in home nursing can cope with illness with confidence."

Arlington area men and women will have an opportunity to develop that confidence when they learn the fundamentals of home nursing in a free Red Cross course in "Home Care of the Sick" at St. James the Greater School Hall, 15 Acton street, starting Tuesday night.

Classes will meet both Tuesdays and Wednesdays from 7:30 to 9:50 p.m. for three weeks. Advance registrations may be made by calling the Rev. George Brennan at Arlington 5-0405.

"At least one person in every family should attend these sessions," says Miss Donnelly. During both instruction and practice periods, students will be taught how to read a thermometer, how to take a pulse, give bed baths, care for simple wounds and burns and generally how to make bed stays, whether brief or lengthy, more comfortable for both the patient and themselves.

"Most families, at some time or other, experience illness requiring home nursing skills," points out Miss Donnelly. "And with the shortage of professional nursing services, there is an acute need for well trained home nurses."

Red Cross certificates will be awarded to all who satisfactorily complete the course.

"Dear Eddie:

"You don't know how glad I was to see your announcement that you would again be a candidate for the Governor's Council.

"This was indeed good news and I hope it will mean that we will be working together in the next two years.

"With warmest personal regards,

Chris."

## Kiwanis Meets

Next week Maurice Hatch will present a young lady who will talk on "The Men On My Life." Franklin Hawkes will present a program on May 20, the subject to be announced at a later date.

## Traffic Lines Will Be Painted In Center Area

An elaborate plan for marking lines to control flow of traffic through Arlington center, which was proposed by Chairman of the Board of Selectmen George Harris, was approved by the Selectmen Monday evening, and will be carried out as soon as possible by the police department.

The painting will show on the pavement just what turns can be made, what streets are one way, and which line of traffic must be used to make the turns.

For instance in proceeding toward Cambridge on Mass. avenue, the right hand lane will be used only for right turns. Those planning to turn left into Medford street must be in the left lane.

The plan, covering the entire center, was drawn up by the engineering department, according to specifications by Mr. Harris.

While the police department will carry out the work of painting the streets, a crew will be assembled to assist in the work. It would be impossible for the two regular men in the police department to handle all of the necessary layouts and painting within a short time.
